

05 February 2021

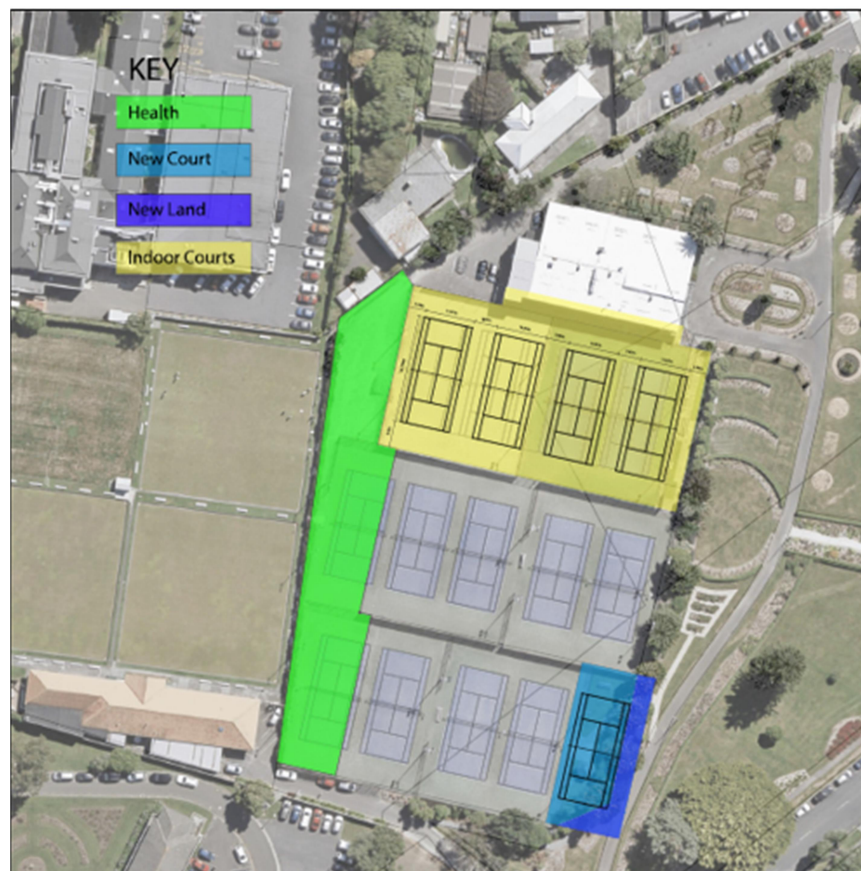

Dear Hutt Valley Tennis Club Committees and Members,

Thank you for supporting the Mitchell Park Development Plan unanimously at the Hutt Valley Tennis Special General Meeting last week.

Please let your members know about this positive outcome for the community. For tennis, it delivers 4 covered hard courts with less weather-related interruptions and a strengthened building.

For the Hutt Valley it opens a site for specialised health services and opportunities for recreation which aligns with the Hutt City Council long-term plan.

The Council will soon engage in a land revocation process that will allow the land highlighted in green in the visual below to be on-sold to a Health developer. This will involve public consultation about changes to land title and leases. If successful the net proceeds of the land sale will be re-invested into the Mitchell Park Development Plan enabling the project to proceed. We ask for your 100% support during this process.

Thank you to the Mitchell Park Development Committee for continued work on design, pricing and securing grants, sponsors and donors. We welcome offers of help to progress this exciting project.

HVT Management Committee
