Nelson Clubs Tennis Hot Shots Tournaments

Competing is at the heart of sport, including tennis. The vast majority of young players aspire to improve their game and compete in appropriate surroundings.

Tennis Hot Shots Tournaments align with the philosophy and development stages of the Hot Shots programme. Catering for children aged 5-12 in the red, orange and green stages of the programme, they use smaller courts, shorter racquets and super hittable balls which means kids can play and enjoy tennis from their first try.

A child having a great competitive experience relevant to their age and standard, at their local club, is the cornerstone of having them fall in love with the sport and become lifelong participants. **It is for this reason that Nelson Bays Tennis Association offer a series of 11 tournaments running across the summer season to allow young players the opportunity to begin.... and to continue their matchplay experience in an environment that allows them to compete at the right level with club and coach support to ensure they have the best experience to grow their love for the game and grow their skills at the same time**

We encourage players to take the opportunity of enrolling in the complete term of tournaments (6 pre-Xmas & 5 post Xmas), saving money, making new friends, experiencing all the clubs in the region and placing a focus on tennis as a summer activity/sport. (\$60 pre-Xmas, \$50 post-Xmas)
